

Stucco Travertino

New Concept: a new piece of furnishing

The Decorative System Travertino plaster new concept discovers and values the aristocratic effect of the famous Italian Marble with an absolutely innovative style.

It a wall finish that allows you to obtain tones, colors and a sensation which up to now was not obtainable with travertino.

The elegant aspect of extraordinary beauty renders Travertino new concept ideally for high prestige surroundings.

The tradition however is saved... there are numerous classical stone colors obtained with a simple coloring system

METHODS OF APPLICATION

Surface preparation: Apply one coat of Primer RV, which adheres well on cement, ceramic and hard wall board ,(photo n.1) with a paint brush on a perfectly level smooth and clean surface.

Application : Let it dry for at least 24 hours and apply the first coat of Travertino with a stainless steel float covering the entire surface evenly (photo n.2); before it is completely dry apply the second coat of Travertino (photo n.3) and immediately go over the surface with a sponge Roller in order to create a crisping effect (photo n.4). Then with a stainless steel float create the smooth part of Travertino as is clearly illustrated in (photo n.5) leave it to set for about 5 minutes and then with a flat trowel go over the entire surface scratching in horizontal directions in order to obtain the Travertino finish desired (photo n.6). When the entire surface has been completed go back over it pressing it with a perfectly clean stainless trowel in order to shine only the smooth parts of the surface (photo n.7). After 24 hours apply 1 coat of Arthe Wax Narurale colored with a sponge or a sponge float (photo n.8) and straightaway give it a shine.
